Internal Project Proposal

Project: Agentic Document Automation. This document describes an internal tool that generates reports, protects PDF files with watermarks and merges documentation.

Scope: Word report generation from templates, PDF watermarking, PDF merging and text extraction.

Owner: Aussadawut Ruenkaew. Status: Approved for internal use only.

Budget and Timeline

Phase 1 (Week 1): Template design and configuration format.

Phase 2 (Week 2): PDF tasks (watermark, merge, extract).

Phase 3 (Week 3): Audit report and testing. Estimated budget: 0 THB (open-source libraries).
